

Co-pharma Aqueous Cream

500ge

Moisturising Cream

Colour free

Fragrance free

About this product

The name of this product is Aqueous Cream. The ingredients that make up the cream are aqua (purified water), white soft paraffin, cetyl alcohol, paraffinum liquidum, sodium lauryl sulphate and the preservative phenoxyethanol. Aqueous Cream is available in plastic containers of 500g and 100g tubes.

Reasons for using this product

Aqueous Cream can be used as a moisturising cream suitable for use all over the body.

Before using this product

Do not use Aqueous Cream if you are allergic to any of the ingredients (see 'About this product')

How and when to use this product

Aqueous Cream can be used by adults, children and babies.

If anyone swallows some Aqueous Cream, contact your doctor or take the person to the Accident and Emergency Department of your local hospital and take the container of Aqueous Cream with you even if it is empty.

After using this product

If you experience any unwanted effects which you think may be due to the cream, stop using it and ask your pharmacist or doctor for advice.

Other information

Do not use Aqueous Cream after the expiry date that is on the pack. All creams should be kept in a safe place away from children.

For external use only. Store below 25°C.
